

# StarkLED® 60W CREE LED Aquarium Light

Version 2.0

## StarkLED CREE LED Aquarium Light

StarkLED 60W CREE LED Aquarium Light is really high quality design with CREE 3watt XP-G R5 8000~10000k white and XP-E D3 455nm royal blue. It performs over 10 times than MH lamp on PAR reading, only 60W.

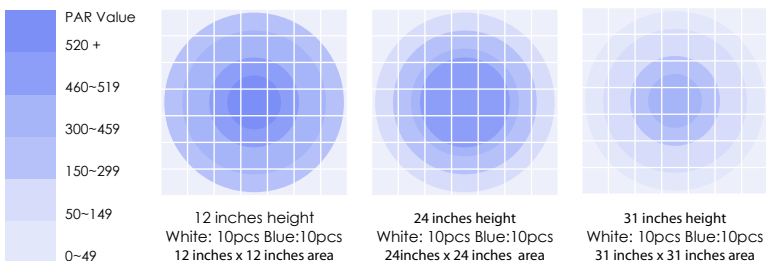

StarkLED 60W CREE LED Aquarium Light is special for corals like SPS, LPS in marine reef tanks. LED aquarium lights are really worthy to choose now, they save much energy (50%-80%), much more efficient with high PAR reading and no UV radiation harm.

### Features:

- 60 watt using CREE series 10 3watt XP-G R5 8000~10000k white and 10 3watt XP-E D3 455nm royal blue
- High PAR value. 200 PAR reading for each LED from 5" distance
- Two dimmers for white & blue each, fan with thermal control switch
- Corrosion-proof casing by special painted
- 80 degree view angle with convex lens, mixing white and blue for better grow effect
- Pure 450~460nm spectrums, No UV radiation harm
- Less heat, no chiller unit required, 68~86°F on water surface
- One fan on back runs against heat
- External power supply, detachable power cord
- Hanging kits included
- Three-Year limited warranty

### StarkLED 60W CREE LED Aquarium Light Performance

### Technical Specifications:

Item NO.	SK-60W-02
Power Consumption	60W
LED Quantity	10x3w white & 10x3w blue
LED Type	XP-E Blue & XP-G White
Input Voltage	AC85~260V
Input Current	0.28~0.46A
Operating Frequency	50Hz-60Hz
LED view angle	80 degree
Operating Temp	-4° F to 140° F
Dimensions	15.7" x5.5" x2.5"
Weight	12.7 lbs.
Packing	18.8" x 10.6" x 11.4" / 2pc

### Dimensions:
